## The Law of Governance, Risk Management and Compliance (Aspen Casebook)

The first casebook on the law of governance, risk management, and compliance. Author Geoffrey P. Miller, a highly respected professor of corporate and financial law, also brings real world experience to the book as a member of the board of directors and audit and risk committees of a significant banking institution. The book addresses issues of fundamental importance for any regulated organization (the \$13 billion settlement between JPMorgan Chase and its regulators is only one of many examples). This book can be a cornerstone for courses on compliance, corporate governance, or on the role of attorneys in managing risk in organizational clients. Features: Addresses issues of enormous a

## Jughead's Double Digest (8 Issues)

### California Probate Code, 2010 ed. (California Desktop Codes)

The complete text of the California Probate Code is included in this pamphlet. Includes selected provisions from the Revenue and Taxation Code relating to death and gift taxes, the generation-skipping transfer tax, and the personal income tax. Also contains selected provisions from the Welfare and

### The Maritime Political Boundaries of the World

This book addresses the often vexed question of national maritime claims and the delimitation of international maritime boundaries. The number of undelimited international maritime boundaries is much larger than the number of agreed lines. The two boundaries that define the marine domain of coastal

### Legal Recognition of Same-Sex Partnerships: A Study of National, European and International Law

Should same-sex couples be permitted to marry? Or should a separate institution of registered partnership or civil union be created for them? Or should the rights and duties of unmarried different-sex couples be extended to them? Should they be allowed to adopt each other's children, or jointly ado

What others say about this ebook:

**Review 1:**

Just as described. Very good!

**Review 2:**

We used this as a textbook in a graduate IT program. Yes, the book is written for law school. No, there wasn't a suitable alternative available to our professor. Despite this circumstance, the book provided a wealth of information and insight into Compliance for our purposes. The author has tuned the text to perfectly deliver its messages and the book reads wonderfully (not as a text book or legal writings normally would). - Just read the preface and you will get a true representation of its flow and lacking legaleaze.

I originally borrowed this book from the library but found the pages too thin and [moderately] transparent to sit down with and casually read. Similar to the fashion of printing used in most legal texts, statute books, etc. In the end I purchased the book in Kindle format and was able to read on my PaperWhite and iPhone6+, and made the world of difference.

**Review 3:**

used it in class

**Review 4:**

Good, concise, and basically the only law book on compliance out there.

**Review 5:**

In today's world of complexity and ever growing risks, it is critical to understand the key issues associated with governance, risk and compliance. Very useful even for those of us that think we are experts.
