## All That Heaven Will Allow

Jimmy Campbell has owned his own bar for the past twenty years. While his past is troubled, his present and future make life worth living. He has good friends, more than enough money, and he volunteers—along with his Yorkie, Bozo, and his Maine coon cat, Miss Alicia—at the local hospital every Friday. He couldn't ask for more. That is, until he meets Derek "Dizzy" Roberts. Derek is a musician who tours the country with his band. He's an ex-cop, was married once, and has the bitter ex-wife and two spoiled children to prove it. He's finally living his dream, and that includes bedding all the groupies who think he's every bit as good as his music. He doesn't worry much about the future, un

**What others say about this ebook:**

**Review 1:**  
**Great Read!**

**Review 2:**  
**3.5 of 5 Stars**

**For original review, visit the Prism Book Alliance blog online.**

**This one snuck up on me. It wasn't until about 80% that I got into things and that last 20% really made this story work.**

**For the first 80%, I was on the fence. I loved the romance and the idyllic quality of the relationship. Neither man was perfect, but once they got together, it is like they just knew how to be perfect for the other man. There was no angst, no screw up, no nothing to take the sugary sweetness out of the romance. I really enjoyed that these men were more mature, but they came across as adolescents in the throes of their first grand love affair. To be honest, the sappy ease of it all was starting to put me off.**

**Then the big disaster happened, and the sugar was still there, but things started to feel more real. Even though this was still presented as an almost non-issue, seeing the men struggle and still want to be together no matter what, was kind of touching. And the ending, was great. Adopting animals in need showcased the imperfections that were hidden by the overly romantic nature of the story. Derek needing to care for an animal with a similar injury and Jimmy bringing home two older dogs, showed that there were still holes that needed filling. That the romance was in fact not enough and that made it a better ending for me.**

**I also loved the concept of the love letters. While some of them were over the top cheesy, one stuck with me. When Derek explained to Jimmy how he knew he was his ?one,? I had tears in my eyes. It was beautiful.**

**Overall, I think this was a good story. It was a great representation of that perfect relationship most of us only dream of. I struggled with that perfection because it was so overly sweet and needed a bit of realism to temper it. But I still enjoyed this and I know many of you will as well.**

**Review 3:**  
**The idea for this story was a solid one. Unfortunately the writing was very Pollyanna. Too sweet and cloying and the main characters had no chemistry. I didn't know why they were together. As sickly sweet as the main characters were the villains awful without much back story to explain it. Sorry but not good.**

**Review 4:**  
**I haven't found a book by this author I didn't totally enjoy. One more for my 'best books list' that I'll take great pleasure in re-reading again & again.**

**Review 5:**  
**A ScatteredThoughtsandRogueWords Mika Review:**

**Rating: 4.25 stars out of 5:**

Jimmy Campbell has owned his own bar for the past twenty years. While his past is troubled, his present and future make life worth living. He has good friends, more than enough money, and he volunteers along with his Yorkie, Bozo, and his Maine coon cat, Miss Alicia at the local hospital every Friday. He couldn't ask for more. That is, until he meets Derek 'Dizzy' Roberts. Derek is a musician who tours the country with his band. He's an ex-cop, was married once, and has the bitter ex-wife and two spoiled children to prove it. He's finally living his dream, and that includes bedding all the groupies who think he's every bit as good as his music. He doesn't worry much about the future, until he meets Jimmy. The two men begin a long-distance romance, sneaking weekends here and there, until a tragedy forces them to realize they might lose the only thing they both want—a future together. Now, they're asking for everything heaven will allow.

I loved everything about these two. I liked that it was 2 guys over 40 years old. Yes both had bad previous relationship but they came into this one only with each other in mind. It was definitely instant love, but at their respected ages I'm pretty sure they knew what was what. This was my first read by this author and I'm glad I really enjoyed it. It felt really slow paced in the beginning, more character driven than the romance and I was okay with that.

Both mc's were equally great in their own ways, but Jimmy definitely stole the show for me. I'm not an animal person by far but what Jimmy was able to do with his heart and for other people is amazing. He was super patient, honest, loyal, and all about second chances. He was super caring, and he just came off as the perfect guy. I mean I don't think he said one negative thing the entire book, and he definitely pulled at my heart strings for sure. Sure he had his issues, damages and reasons for wanting to start something with Derek but I'm super happy he gave into it, because it made him a happier man.

When Derek is first introduced it's him offering himself as a player name Dizzy. LMAO, I thought he was super charming, but of course all that charming was just a facade for the man underneath. Their first interaction with each other had me rooting for Jimmy and snorting at Dizzy because he just got served big time.

All in all, they made their romance work for them. Dizzy finally got the family he wanted, James finally had someone who love and appreciated him. A couple things bothered me, Derek's previous relationship and children story line didn't get wrapped. I felt like it was just left off, and I would have liked to seen some type of mending of the sorts. It was a lot of misspellings in the book; I did think they needed a better proofreader. I didn't tear up surprisingly. I would recommend this book to CR readers, just an easy read between two older guys. I like reading about older guys. I find that they tend to communicate a lot better, and that's mostly what I'm looking for.

The cover artist Bree Archer created this cover, and I liked the picture because it was full circle for the two guys. I did feel like the one portraying James wasn't since in the book he was a full blond, other than that I really liked it.
