**What others say about this ebook:**

**Review 1:**

**Far less expensive alternative to Janes Annual.**

**Review 2:**

**A great coverage of the past year's events for all the navies of the world.**

**Review 3:**

**A fantastic review of the world's navies done every year, with this having the usual number of great photos to go with all the wonderful information.**

**Review 4:**

**While not up to Jane's standards, this book is actually within my price range and provides a very good summary of the navies of the world by ship. Narrative is good and I could find no fault with the tons of facts presented. Makes a good yearly supplement to the Naval Institute books.**

**Review 5:**

**As up to date as any print item can be. Concise, well illustrated. A book you can read for 10 min. then put down and return to.**
