Kisscut: A Grant County Thriller (Grant County Thrillers)

Gillian Flynn says, "Karin Slaughter is simply one of the best thriller writers working today." Saturday night dates at the skating rink have long been a tradition in the small southern town of Heartsdale, but when a teenage quarrel explodes into a deadly shoot-out, medical examiner Sara Linton and police chief Jeffrey Tolliver find themselves entangled in a terrible tragedy. Then a young girl is abducted, and it becomes clear that the first death is linked to an even more brutal crime, one more shocking than anyone could have imagined. Meanwhile, Detective Lena Adams, recovering from a staggering personal loss, finds herself drawn to a young man who might hold the answers. But unless

What others say about this ebook:

Review 1:

An absolute page turner. Cannot believe the evil plot, still get chill running down my neck when I think that these things also happen in the real world.

Review 2:

I'm not sure where to begin. I don't want to say I liked the story, because it's horrifying and it's like walking out of the movies having seen "The Silence of the Lambs" and saying "Wow what a great movie."

Here's the thing. I was engaged but there were things that bothered me about this story and part of the things that bother me are carryovers from the first book. In the first there were some pretty big issues left outstanding regarding Jeffrey and his police force. Frankly, I assumed that there would have been some mention, even in passing regarding the resolution of that. Nope, it's like it never happened. The good thing, you could pretty much read this book as a standalone and the only thing you would miss is some of Lena's back story.

My other issue is that the main characters (Sara, Jeffrey, and Lena) are so flawed that as a reader I want to climb into the story and smack them. That being said, I find Sara the most likeable but it really bothers me that the author hasn't found a way for Sara and Lena to connect positively. They don't have to be friends but I find the animosity tiresome.

Then there is Jeffrey who has his moments when he's a good guy, but mostly he's self centered and self absorbed. Then as if that wasn't bad enough he has some sexist and degrading thought about Sara and you just want to punch him in the face. Twice.

Review 3:

Some of her works are very compelling, this book is good, not as good as some of the Will Trent series.

Review 4:

I found this author by accident and was hooked with the first book. Her books are gritty psychological thrillers that keep you hanging til the very last! She makes you love her core characters and you even long to live in Grant County, Georgia just to be a part of it.

The book starts innocently enough at the skating rink and quickly escalates into a deadly confrontation between two teens. As the story unfolds it uncovers a ring of child predators with one single woman always one step ahead of the police. Each chapter brings a different level to the discovery of what has been happening right under the nose of Sara Linton, the counties pediatrician and part-time coroner, not to mention the ex-wife of the chief of police. The story also includes their tumultuous relationship and his efforts to win her back.

Review 5:

The highly emotive qualities of the writing in this story are as strong as the rest of Ms. Slaughter's works, but the baseline topic of the criminal aspect was just too sad and devoid of humanity for my tastes. Frankly, it brought a hauntingly sick and eerie darkness to mind that did not end with the conclusion of the book. That's why I gave this one only four stars, although in rereading my words above I realize that she probably accomplished exactly what she set out two in using such themes.
